Frontend-Focused Full-Stack Developer with hands-on experience building scalable web and mobile applications using React, Next.js, TypeScript, and React Native. Trained in full-stack development with practical exposure to Node.js and MongoDB, focused on reusable component architecture, maintainable code, and REST API integration.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+)
- **Frontend:** React, Next.js, HTML, CSS, Tailwind CSS
- **Mobile:** React Native, Expo
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** PostgreSQL, MongoDB, Prisma ORM
- **Testing:** Jest, React Testing Library, Unit & Component Testing
- **Tools:** Git, GitHub, Docker, Vercel, Cursor, Figma

SELECTED PROJECTS

- **Admin Analytics Dashboard** – Next.js, TypeScript, PostgreSQL, Prisma: Built an admin dashboard with reusable components, REST API routes, and relational data management for scalable data-driven workflows.
- **Full-Stack E-Commerce Platform** – Next.js, TypeScript, PostgreSQL, Prisma: Developed product catalog, cart workflow, and backend APIs with relational database schema.
- **SaaS Task Management App** – Next.js, TypeScript, PostgreSQL, Prisma: Implemented task CRUD, project workflows, and backend APIs using Prisma with PostgreSQL for scalable task management functionality.

WORK EXPERIENCE

- Frontend-Focused Full-Stack Developer

Professional Development | 2024 - Present

 - Completed an intensive Full-Stack Development Bootcamp in 2024, building production-ready web and mobile applications.
 - Designed and implemented scalable frontend architectures using React, Next.js, and TypeScript.
 - Integrated REST APIs and strengthened testing fundamentals using Jest and React Testing Library.
 - Continuously improving backend fundamentals with Node.js and database integration.
- Freelance Frontend Developer

Dec 2022 - Apr 2024

 - Designed and deployed a responsive landing page for a restaurant client in the United States, optimized for mobile usability and performance.
 - Translated business requirements into functional web solutions with mobile-first design principles.
 - Maintained performance optimization, content updates, and usability improvements.
- Operations Manager

Service Business | 2022 - Present

 - Managed daily operations across multiple local service businesses, workflow optimization, and budgeting processes.
 - Implemented workflow improvements that streamlined daily operations and enhanced customer service efficiency.
- Founding Operations Associate

Creator-Led Stationery Brand | 2020 - 2022

 - Managed end-to-end business operations including supplier coordination, production planning, inventory management, financial tracking, and workflow organization for a creator-led stationery brand.
- Administrative Assistant

Malaysia Hair Import Export Co Ltd. | 2019 - 2020

 - Coordinated cross-department operations to ensure workflow efficiency and accurate documentation management.
 - Managed data entry, inventory tracking, and internal reporting processes.
 - Improved document organization workflows to enhance retrieval accuracy and operational efficiency.
 - Developed strong communication and problem-solving skills in a fast-paced business environment.

EDUCATION

- Junior Software Developer Bootcamp

BornToDev | Jun 2024 - Sep 2024

 - Completed an intensive full-stack program focused on modern JavaScript ecosystem, including React, Node.js, MongoDB.
 - Developed production-ready web applications with RESTful API integration and modular architecture design.
 - Designed and deployed a web application with scalable frontend structure and backend integration.
- Bachelor of Economics (Finance)

Chiang Mai University | 2015 - 2019

 - Major in Economics, Minor in Business Administration (Financial Management)
